

FORECLOSURE RESCUE PROGRAM

It is hard not to panic when you are at risk of losing your home.

Don't lose hope, you still have options and choices.

Don't fall victim to cash buyer predators out to take your equity.

Do you want to save your equity?

You can:

- 1 Choose to work with the Select Foreclosure Rescue Program. The Foreclosure Rescue Program will bring your loan current and stop the foreclosure process. This will give you time to list your home as a regular sale, not a distressed sale.

AND

- 2 Save your hard-earned money and equity instead of losing it to the bank or a predatory cash buyer.

Don't miss this opportunity. Call a Select agent today to learn the details of how this program could help you to save your equity and relinquish the burden of this debt. Time is of the essence. We can set an appointment to go through all of the details. Then you can decide if this is right for you.
